

Community Engaged Research Resource Sheet

The ACCEL CEO core is a catalyst between Delaware's clinical and translational health researchers and the communities that are impacted by their work. The CEO core is a resource to researchers as they work to include community voice in their research.

Services are available to researchers, clinicians, and community partners affiliated with ACCEL DE-CTR institutions. Involving the CEO Core during the early stages of study planning is recommended to ensure the most comprehensive support.

Benefits of Getting Involved

- Free consultation with institution-based community engaged researchers to discuss approaches to enhancing community/patient perspective in your research.
- Educational tools
 - Access to the asynchronous online [ACCEL Community Engaged \(ACE\) Curriculum](#)
 - Resource library of seminars and webinars
- Assistance with developing community engagement plans for ACCEL grant applications (e.g., Pilot Awards, Mentored Research Development Awards (MRDA), etc)
- Connections with others in your field
- Connections with local community agencies with similar interests

The CEO core also host its annual [Community Research Exchange](#) conference and provides opportunities for scientific podium and poster presentations.

Requests for assistance

Request for assistance may be submitted [here](#). Please [log in to the ACCEL site](#) to access the Request form. If you do not have an ACCEL log in, click the [Register link](#).
